

Dear Joost students,

28.2.2013

First of all, we would like to thank Tramaine for her weekly impressions. As we understand, you have already received descriptions of galleries in Ljubljana, we would perhaps like to suggest that you examine Škuc Gallery more thoroughly as our exhibition will take place there and some of the works will be site-specific.

We have been thinking about our experimental workshop and so far we have arranged with some of our artists to meet and talk to you. Maybe we could also do some kind of a public workshop or performance at the exhibition space or somewhere nearby.

Since Ljubljana is really quite small, everywhere you decide to go is probably within a walking distance.

Our school, where the “headquarters” will be, is located in one of the most interesting locations in town – Metelkova mesto (Metelkova City). It is a place where alternative scene is alive, different venues there offer concerts, parties on a daily basis. We are not really sure if Beyonce is having a show in Slovenia any time soon, but there will be a concert in Croatia's capital Zagreb though. 17th April, if anyone is interested.

You can check out the web page for Metelkova here:

For performances and contemporary theater you can check a place called Stara elektrarna (Old electric factory): <http://www.bunker.si/eng/>

And finally, names of the artists are: Mirjana Batinič, Vid Batista Avdič, Simon Hudolin - Salči, Neža Jurman, Gal Košnik, Tejka Pezdirc, Nika Rupnik, Matej Stupica, Andrej Škufca, Tadej Vaukman and Staš Vrenko. You can google them if you feel like it. We will send a more detailed description of the artworks soon.

We are looking forward to hear from you.

Kind regards,

World of Art students
